

SMITH KASHYAP

SENIOR CONSULTANT

PHONE | (+91) 9878250491
EMAIL | smithkashyap11@gmail.com
LOCATION | Gurugram, INDIA
EXPERIENCE | 10 Years 0 Month

Key Skills

- React Native
- React.Js
- MongoDB
- Express
- Node.Js
- Android Application Development
- Core Java Programming
- Kotlin
- SQLite
- Javascript
- TypeScript
- Redux

Certification

- The Complete React Native + Hooks Course [2019 Edition]

Languages

- English
- Hindi
- Punjabi

Profile Summary

PROFESSIONAL SUMMARY

Results-driven Mobile and Web Developer with 10+ years of experience in delivering high-quality, scalable applications. Specialized in React Native (7+ years) and MERN stack development. Deep expertise in UPI verticals and FinTech application development. Proficient in leading Agile teams and integrating secure, performant backend systems. Seeking a challenging React Native or MERN stack role.

TECHNICAL SKILLS

Mobile: React Native, Android (Java/Kotlin), Redux, Context API, Zustand, Secure Storage, SQLite, Multithreading

Frontend: React.js, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS, MUI

Backend: Node.js, Express.js, RESTful APIs, GraphQL, MongoDB, Mongoose, Sequelize

Security & Middleware: JWT Auth, CORS, XSRF/CSRF protection, Rate Limiting, Role-Based Access Control (RBAC), Helmet.js

DevOps/Tools: Git, GitHub, Postman, Firebase, Jenkins (basic), Agile/ScrumTesting: Jest, Unit Testing, Integration Testing

Others: Google API, Firebase, SQL Cipher, SSL Pin

Work Experience

Senior Consultant

EY

12/2022 - Present

Currently leading a team of 7 developers for Airtel Payment Bank in the UPI vertical

Responsible for Agile project management including sprint planning, sub-task evaluation, and bandwidth allocation using JIRA.

Overseeing design, development, and delivery of

Heading

- Senior Consultant | React Native & MERN Stack Developer

scalable mobile features using React Native and backend integrations using Node.js and MongoDB. Integrated secure payment flows, QR code scanning, AutoPay, mandate authorization, and biometric authentication. Collaborated with cross-functional teams using Agile practices. Actively involved in architectural decisions, code reviews, and performance improvements.

Software Developer II

FIS

05/2021 - 12/2022

Built FinTech dashboards and mobile apps with React Native and Node.js. Integrated REST APIs, JWT auth, and MongoDB for transaction management. Worked on UPI-enabled features for financial user flows.

Senior Software Developer

Debut Infotech

09/2020 - 04/2021

Lead React Native mobile app development and backend integration using Node.js.

Software Developer

Softobiz Technologies

05/2018 - 09/2020

Developed scalable mobile apps and APIs for global clients.

Android Application Developer

Netset Software solution

09/2017 - 05/2018

Developed Android apps with Java/Kotlin, implemented best practices and performance optimizations followed by MVVM, MVP Architecture.

Android Developer Looking for job change

Vibrantappz

10/2015 - 09/2017

Developed Android apps with Java/Kotlin, implemented best practices and performance

optimizations.

Education

B.Tech/B.E. - Computers

2014

Punjab Technical University (PTU)

Projects

Airtel Thanks App | UPI | Payments

30 Months

Link: <https://play.google.com/store/apps/details?id=com.myairtelapp>

- Applied technologies such as Core Java, Kotlin, TypeScript, JavaScript, React.js, React Native, HTML, and CSS to drive successful app development and ensure compatibility across platforms
- Implemented key features including Auto-Pay, Mandate-payment flow, Scan-QR payments, and Deeplinking to enhance app functionality and user experience
- Executed the implementation of No-Code platform, Auto-OTP authentication, SSL-Pinning, and SQL-Cipher, significantly improving app security by 40%
- Utilized Secure-Storage, Platform Bridging, and Multithreading techniques to optimize app performance, leading to a 30% reduction in app loading time
- Implemented SIM-Binding, Crypto services usage, and Accessibility features, resulting in a 25% increase in app accessibility and security
- Provided Bug Fix Support, added analytics, and created Dashboard for tracking user journey, improving the overall app stability and user engagement

D1 Mobile App (Fintech Applications) and D1 DSM Admin Panel

18 Months

Full-stack development using MERN stack + React Native.

Created dashboards, REST APIs, JWT/Bcrypt auth, and real-time finance UI.

Implemented role-based access, rate limiting, and API-level protection for enhanced backend security.

Moglix - Supplier Central App

6 Months

Link: <https://play.google.com/store/apps/details?id=com.moglix.supplier>

OTT review platform with comments, likes, and location-based features.

Stack: React Native, Node.js, MongoDB, Jest, REST APIs.

Trackit LLC

24 Months

Project Undertaken: Trackit LLC

Description: Developed a platform for accident, incident, and attendance tracking with real-time location and communication features.

Technologies:

JavaScript, React Native (Android development), Node.js, MongoDB, Redux, Axios, Google Maps API, Core Java, Kotlin, REST APIs, Firebase Chat, FFMPEG, LiveTracking, ASPOSE, Apache POI, SQLite DB

Stack: React Native, Node.js, MongoDB, Firebase, Google Maps, FFMPEG.

Akalat Food Delivery App

5 Months

Developed a Zomato-style food delivery app tailored for the Arab region.

Built core features such as order placement, restaurant search, filtering, sorting, live order tracking using sockets and real-time location.

Integrated payment gateway for secure transactions.

Used React Native, JavaScript ES6, Redux, REST APIs, third-party libraries, and custom CSS for UI design.

ValCRM

12 Months

Link: https://play.google.com/store/apps/details?id=com.valcrm&hl=en_IN

Stack Used:

React Native, JavaScript ES6, Redux, Third party libraries, Rest APIs CSS, Payment gateway

ValCRM application takes communication to a whole new level, Meetings calls tasks Email, telephony, SMS and intranet all happens under the same roof. Thus it becomes easier to manage your business while you're on the move. Users can efficiently manage leads, contacts & customers. With ValCRM it has become much easier to create activity-based workflows.

Fantricks India Pvt. Ltd

7 Months

Projects at Fantricks India Pvt Ltd:

Projects: Fantricks

Client Respectively Fantricks India Pvt. Ltd.

Domain Fantasy Cricket Game

Front End+Mobile

App

Front-end:- Html , CSS , Bootstrap , React.js, Mobile

App:- Android,

Ios

Back End Nodejs, Expressjs

Team Size 4-5

Test Methodology Waterfall & Agile

Tools: Code Management Tools (Git lab), Database

Access Tools: (MySQL).
